Vision, Mission & Corporate Values

Our Vision

Luxury Metals with its growth towards sustainability in steel, aluminum and glass industry competitively dedicates itself to be universally recognized as a market leader in providing innovative, material-based solutions that build on intrinsic materials and deliver superior value to users.

Our Mission

Our mission is to value excellence in achieving the prime expectation of our clients in delivering highest level of quality materials and optimal expertise. As we deliver successful completed projects we also have to be grateful in continuously building rapport with clients, employees and other networks in making things feasible.

Our Corporate Values:

1. Customer Oriented
2. Safety First
3. Quality in Everything
4. Wise Leadership
5. Professionalism

Manufacturing Area

At Luxury Metals we practice safe and non-hazard working environment where skilled workers are able to exert their field of expertise with confidence that they are in secured working area. In which, the company observes to all safety and occupational health rules and regulations implemented by the government.

Each of the following employees are given safety manuals with extended and further trainings on the machineries and physicality and is always observed by trained Safety and Health Officers in the workshop and on sites.

The factory is modern and equipped with the latest machineries, tools, accessories and protective gears. Luxury Metals takes pride in displaying where our marketing supplies of products are being manufactured.

State of the Art Machineries:

- Welding Machine
- Double Head Cutting Machine
- Twin Block Air Compressor
- End Milling Machine
- Jet Milling Machine
- Bending Machine
- Freezing Machine
- Punching Machine
- Crimping Machine
- Copy Router
- Vertical Panel Saw

Luxury World of Steel

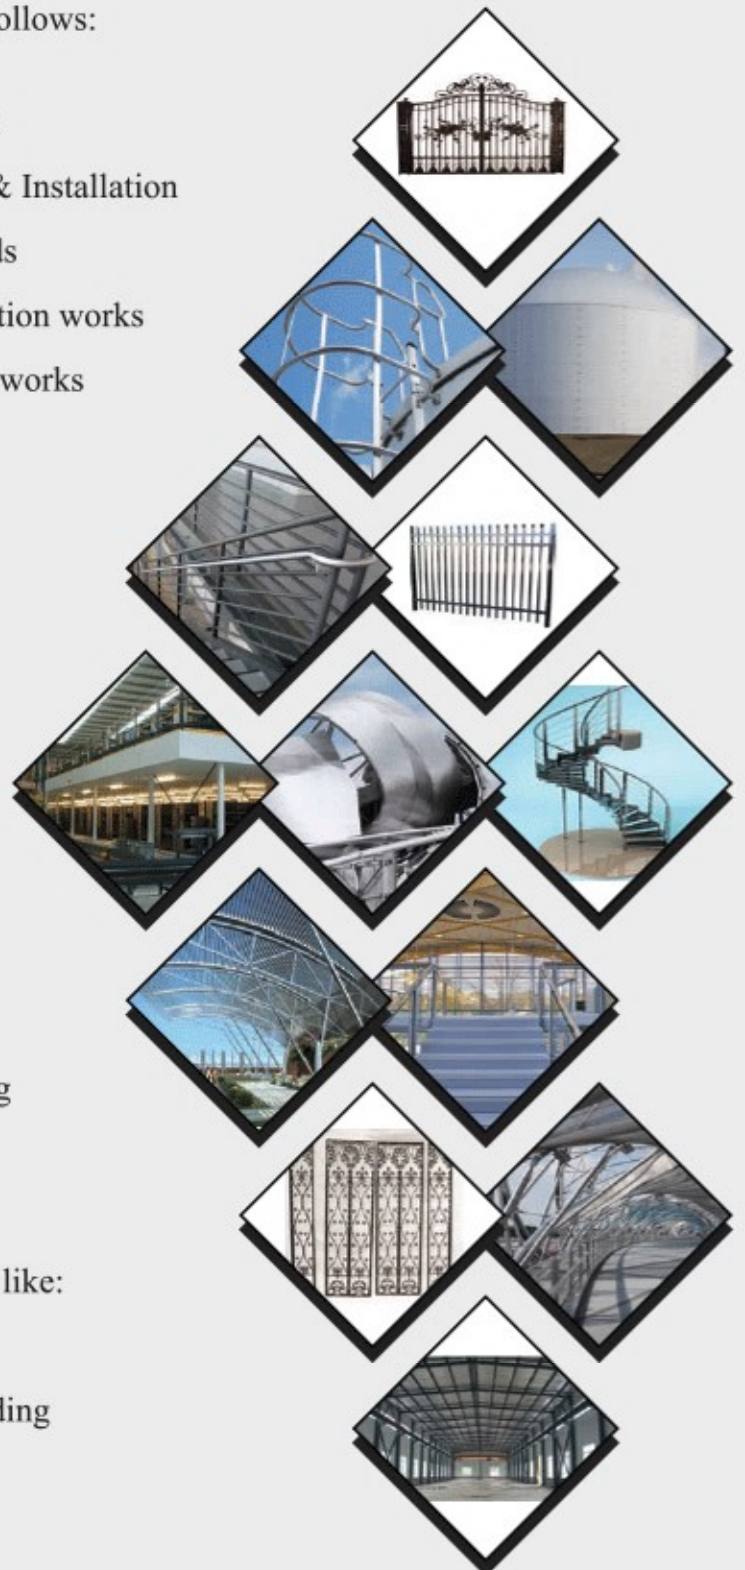

Luxury runs a fully equipped state of the art workshop for steel works executed by highly qualified personnel, fabricators & welders utilizing the latest technology machineries enabling us to execute all kinds of projects regardless of size, complexity, location or site requirements.

Our range of products varies as follows:

- Pergolas and Canopies
- Decorative Railings.
- Decorative handrails
- Cast Aluminum Gates
- Decorative Screens

Quality is our top priority

The management has the added responsibility for demonstrating, through actions, the importance of this priority. In any business, ethical behavior does not simply happen; it is the product of clear and direct communication of behavioral expectations, modeled from the top and demonstrated by example. Again, ultimately, our actions are what matters.

Luxury Metals exercise the advantage of the usage of international standard quality aluminum, steel, glass, metal, iron along with the accessories to manufacture all the above mentioned products and materials.

The consistent application of professionalism and expertise of our internal quality officers at work designated to inspect and evaluate the outcome and the ongoing development of projects ensuring that all received the company's highest standard of criteria from its manufacturing to onsite installation and has set metric and accurate quality inspection report systems and transparency.

We mentioned quality here to reassure you to our commitment to quality from beginning to end.

Fire rated Steel Doors

Here at luxury we manufacture highest standard quality of steel doors to accommodate all your needs. We manufacture Fire Rated doors approved by civil defense.

The range of doors vary as follows:

1- Fire rated Steel doors:

A complete range of single or double personnel door sets designed to comply with the varied requirements of fire rated applications. Fire doors are designed for the protection of openings in walls and partitions against fire when installed in accordance with NFPA 80 atonal Fire protection association standard for fire Doors and Windows. Door leaves ranging from 46mm (30mm for access panels) to 56mm thick depending upon the type & project specification, manufactured from 1.2mm thick galvanized steel. Door frames manufactured from 1.5mm thick galvanized steel and available in a choice of three standard and profiles.

Fire ratings: up to 2 hours, tested in accordance with Underwriters Laboratories.

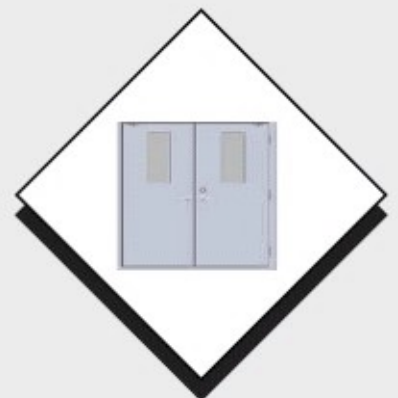

(UL 10 B ,C) approved and labeled by local Authorities.

Rating: 90 minutes / 120 minutes

2- Acoustic Steel Doors:

Acoustic doors are designed to prevent the passage of excessive or unwanted noise in commercial, industrial and public buildings. They are used externally to keep noise levels within Environmental Health limits and internally to reduce the passage of sound between rooms.

They are typically used in manufacturing premises, plant rooms, recording studios commercial offices and auditoria. Luxury Metal produces a complete portfolio of steel sound reducing doors ranging from large, purpose designed hinged, sliding and folding configurations to range of pre-engineered personnel doors which are tested to 180144-3 and performance rated from Rw 29dB to 57 dB.

3- Vision panel/Double glazed steel doors:

These fire rated doors are recommended to suit any application where vision is important. We can fabricate and manufacture any shape and size of your requirements.

4- Wooden finish fire rated steel doors:

Where design and looks are important we provide wooden finished steel doors where they have the nice looks (pleasing appearance) of wooden doors and durability and strength of steel doors.

* All our Fire rated doors are UL certified and approved by Civil defense in all 7 Emirates.

Luxury Installation Team

We give our customers extra hand. Our installation team is ready to support our customers and partners in completing their projects and making the last final step that is installation at site.

Luxury Metal is proud to have highly specialized, skilled and dedicated team who can get the job done with high quality, on time and to your satisfaction.

Our skilled installation team are specialized in the following:

- 1- All kinds of Doors Installation (Steel, Wooden, Aluminum ... etc.)
- 2- Steel Works installation
- 3- Aluminum works installation.
